MAGNA-BAR™ Peg Display System, Sign Holders, Clips & Fasteners

connecting products to people.

Magna-Bar Boosts Shelf Space

Get tighter, crisper product facings and use space more efficiently with Magna-Bar. Compare it to shelving and other pegboard hardware and see how Magna-Bar can cure your hang-ups.

- Fits existing store fixtures, replaces shelves and lightweight hooks and pegs
- Adapts to a variety of display applications
- Maximizes use of valuable display space
- Reduces upkeep – boosts product presentation and impact
- Expands number of product facings
- Increases pack-out with extended peg length and large weight bearing capacity
- Highlights your brand from other products in the same category

Modular Components

The Magna-Bar is the ultimate peg display system. Unlike pegboard displays, the Magna-Bar won't sag or tear-out when it's heavily loaded. The tubular steel bar and heavy-duty, removable pegs and hooks provide rigid support for packaged goods. Bars attach easily into the slotted uprights found on all gondola fixtures and temperature controlled display cases. Universal mounting brackets are adjustable and fit the slotting on all gondola fixtures.

Standard Magna-bar

Upscale Magna-Bar has pre-assembled brackets

- Accommodates wide variety of package shapes and sizes
- Provides stability, uniformity and adaptability for low maintenance and upkeep
- Offers flexibility to create unique showcase displays

Magna-Bar Pegs & Accessories

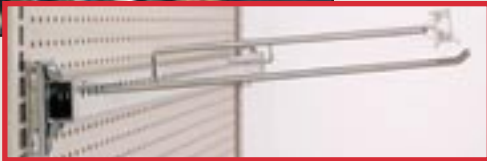

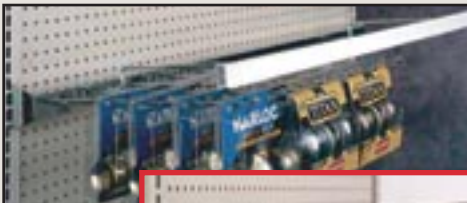

The system has holes every 7/8" on-center to ensure precise merchandising layout. Openings on both sides of the bar maximize the weight bearing capacity and rigidity of longer pegs. Simply insert pegs through the bar and twist 90° to lock.

Pegs come in varying lengths:
8", 10", 12" & 15"

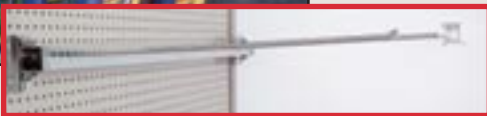

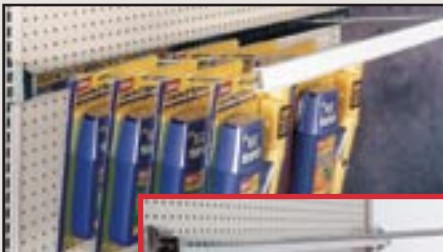

Inset Plastic ID Channels

1" above and 1/2" behind peg tips.

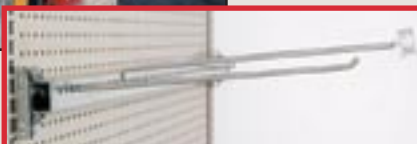

Straight Plastic ID Channels

Adjacent to pegs and 2" in front of tips.

Offset Plastic ID Channels

3/4" above and 2" in front of peg tips.

Gold 48" ID Channels

Gold 36" ID Channels

Aluminum 48" ID Channels

All ID Channels accommodate 1 1/2" labels.

Channel Connectors

Plastic inserts connect ID channels for additional length in horizontal displays.

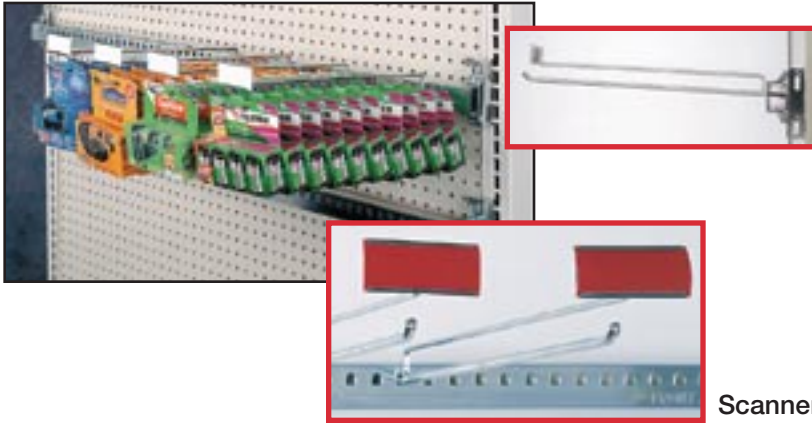

Locking Bar Channels

Locks pegs in place for security.
For use with 48" Magna-Bar.

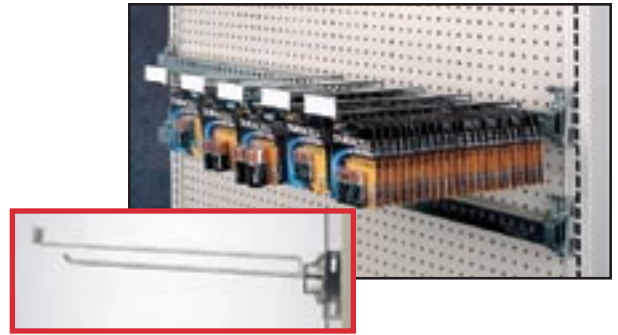

Inset Scanner Pegs

1" above and 1/2" behind tips

Offset Scanner Pegs

3/4" above and 2" in front of tips

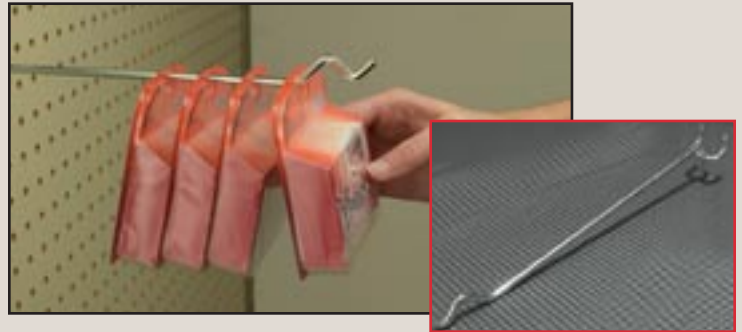

Scanner pegs with 1 1/4" x 2 3/4" ID channel

8" Pegboard Pilfer Rod

Magna-Bar Extension Kits

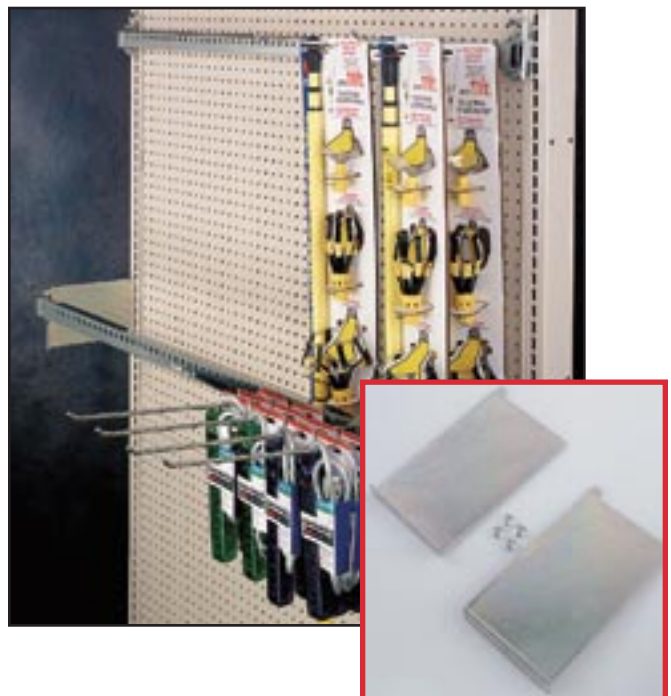

Vertical Extension Kit

Three different extension kits are available to elevate Magna-Bar above gondola fixtures. Kits have three sets of holes 1 3/16" apart. (One kit needed per bar)

Horizontal Extension Kit

Create a cascading display and increase facings by installing a peg bar in front of longer items using a horizontal extension kit. (One kit needed per bar)
