### Description

Our CO2 cylinder carriers offer several heavy duty construction features that meet the DOT Code of Federal Regulations for safe and efficient transportation of compressed gases. From the rigid welded frames constructed of heavy gage square steel tubing to their ability to serve double duty as returnable pallets, Cannon Equipment CO2 carriers are a safe and approved way to transport compressed gases. This custom designed, vertical CO2 cylinder carrier can handle 16 cylinders in a 4 x 4 pattern and are stackable, saving valuable floor space.
