Description

Used to improve workflow and employee ergonomics, this workstation and optional add-on unit allows for the efficient staging and stuffing of newspapers. With a continuous hinge shelf that folds to allow products to be stored underneath, and a 1,000 lb load capacity, this workstation unit will streamline your newspaper, postal or manufacturing operations. This base unit stands alone with upper and lower plywood dividers, while the add-on unit includes another shelf and legs that then attach to the back of the base unit.
