E Q U I P M E N T

Spring loaded, double latch front doors

Patented, repositionable shelf swings up and locks into place, or lowers into shelf locations.

Standard configuration shown. Also available in a forkliftable configuration.

PROMOVE SERIES PALLET BUSTER

The ProMove Series Pallet Buster cart provides significant advantages over pallets. Featuring patented adjustable shelves this cart will contain, transport, and protect product that would normally be damaged or often times tampered with during transit. Double latch spring loaded doors secure into place, maintaining the security of items within the cart. With a height of 82" the Pallet Buster allows for more cubic feet of space than the standard pallet.

VALUE

Features

- With a vertical height of 82" and a grid "top" more items can be stacked vertically and oversized items fit through the top grid allowing you to cube out truck space.
- NO ADDITIONAL packing materials required. Simply load the cart and close the doors.
- The Pallet Buster has 4 swivel casters with a position lock brake and a side lock brake, making it easy to maneuver safely, without the use of either a pallet jack or a forklift. A forkliftable configuration is available.
- All Cannon Equipment carts are ergonomically designed to promote safe operation and employee well-being.
- The sturdy design allows for extra protection during transportation resulting in less damage.
