

## SMARTPWR

### THE SMART WAY TO PICK

Our ProPick Series picking cart with SmartPWR Technology represents the next generation of powered material handling solutions. This new cart re-imagines how your organization handles and moves the products your customers need and does so while bringing new levels of safety and productivity to your operations. From the ergonomic controls and added power to the high battery capacity and numerous safety features, our new ProPick picking cart with SmartPWR Technology is the smart way to power your material handling operations.

INNOVATIVE

EFFICIENCY

SAFETY

## Features

- The lightweight zero-turn maneuverability makes controlling the cart a breeze, and easy to navigate around tight corners.
- An open concept allows for easy and efficient picking from either side.
- With its powerful motor, operators are able to move 750 lbs. with ease.
- Highly versatile by being able to move various types of materials: totes for picking orders, larger packages, or heavier items.
- The long battery life allows operators to go a full shift or longer without having to recharge.
- Controls for the picking cart are at the touch of your fingers with comfortable and ergonomic handles.

## Specifications

**Length:** 115.25"

**Width:** 26.6"

**Height:** 74.5"

**Weight:** 525 lbs.

**Shelves:** 4

**Load Capacity:** 750 lbs.

**Speed Settings:** Tow forward speeds, one reverse. Preset speeds set by supervisor

## Smart Features

**LED Status Bar:** Communicates fault codes, and informs the operator of battery level and power status.
